

# SKYHOOK®

## GUTTER HANGERS

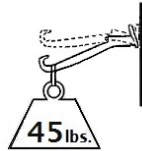

*A Product You Can Hang Your Name On.*

### Why Heavy Duty Polycarbonate Is Better Than Metal

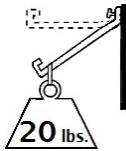

**SKYHOOK**

Maintains shape after the heaviest loads

**Metal Hangers**

Even heavy duty will remain bent after load causing gutters to sag

**Strength and Ease of Use Saves Time and Money!!**

Made in the USA

*AND, no oily mess or oxidation residue!*

### Designed Specifically for Optimal Rainwater Management

- The **only** hanger with a completely sealed, one piece design.
- Washer head sealing screw keeps water from seeping through fastener hole into fascia board, preventing wood rot.
- Solid back plate holds gutter tight against fascia board deterring overflow water.

### It's All About Quality

3 ½ inch #12 galvanized screw in each Skyhook, ready for use. Screw stays put with a pull out strength of 860 pounds!

Resists extreme temperatures, acid rain and ultra violet rays.

Reinforcing ribs provide extraordinary holding power under extreme loads of ice and snow.

*Have confidence in Skyhook's superior construction. It's the only gutter hanger with a lifetime warranty.*

### Water Test

**SKYHOOK** is the only hanger that won't leak through!

For use with all 5" - 6" K-Style gutters.
