

SKYHOOK GUTTER HANGER

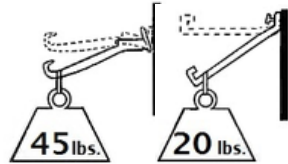

WHY HEAVY DUTY POLYCARBONATE IS BETTER THAN METAL

SKYHOOK

Maintains shape after the heaviest loads

PLUS, no oily mess or oxidation residue!

METAL HANGERS

Even heavy duty will remain bent after load causing gutters to sag

**Strength and Ease of Use
Saves Time and Money!!**

Made in the USA

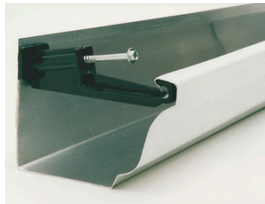

DESIGNED SPECIFICALLY FOR OPTIMAL RAINWATER MANAGEMENT

- The **only** hanger with a completely sealed, one piece design.
- Washer head sealing screw keeps water from seeping through fastener hole into fascia board, preventing wood rot.
- Solid back plate holds gutter tight against fascia board deterring overflow water.

IT'S ALL ABOUT QUALITY

3 1/2" #12 galvanized screw with each Skyhook. Screw stays put with a pull out strength of 860 pounds!

Resists extreme temperatures, acid rain, and ultraviolet rays.

Reinforcing ribs provide extraordinary holding power under extreme loads of ice and snow.

Have confidence in Skyhook's superior construction. It's the only gutter hanger with a lifetime warranty.

WATER TEST

SKYHOOK is the only hanger that won't leak through!

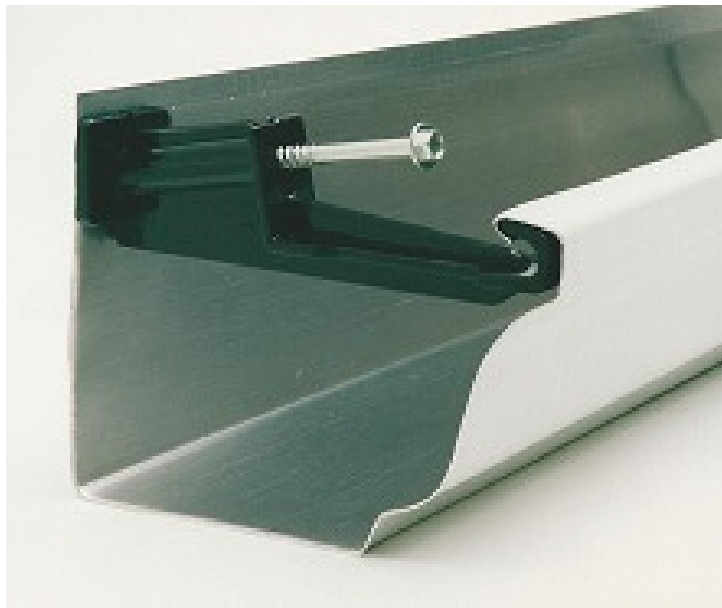

For Use With All 5" & 6" K-Style & Half-Round Gutters.
